YEW EVERLOW

TAXUS X MEDIA EVERLOW

Light: Half Day Sun
Flower Color:

HT: 1'-2'
W: 5'
Z: 4

Everlow Yew is a new hybrid which makes it sufficiently winter hardy for the upper Midwest. Its claim to fame is short stature and a slow growth rate. Will grow in full sun-full shade. Being evergreen, they provide year-round interest. Most yew selections just grow too big for foundation plantings so must be trimmed for height control. This low growing cultivar eliminates any need for shearing.
